

A SUPERIOR ENERGY SERVICES COMPANY

Hallin Manufacturing Services

Hallin Manufacturing Services provides a complete design and build service in support of your subsea project.

Hallin Manufacturing Services

Hallin Marine is an integrated subsea contractor providing a range of engineering and subsea services to the offshore oil and gas sector worldwide.

Hallin has a modern manufacturing facility based in Singapore, managed by a team of professional engineers with extensive experience in the design, build and fabrication of subsea equipment, ROVs and saturation diving systems.
